To determine an estimate of property taxes take the assessment by BC Assessment / 1000 * the total tax rate at the far right applicable for the class of property.

For example a residential house valued at \$170,129 / 1000 * 10.93802 = \$1,860.87

Please note: depending on the location of any property, frontage and parcel taxes may be applicable for water and sewer in addition to the property taxes above.
